

KUALITI KHIDMAT ALAM SDN BHD

Integrated Management System Policy Statement

Kualiti Khidmat Alam is in the upstream business involving marketing, collection, packaging, cleaning, clearing, remediation and transportation of scheduled wastes. In pursuit of excellence in the business, the organization recognizes the importance of a systematic work process and a highly motivated and caliber team of staff and associates. At the same time, being a Socially Responsible Corporation and as a member of UEM Enviro, we are utmost concerned with the environmental and OSH footprints of our business processes and activities.

With this in mind, we are committed to implementing the following principles in guiding the organization towards a sustainable business environment.

At Kualiti Khidmat Alam Sdn Bhd,

We integrate environmental, health and safety consideration together with quality management systems into our corporate strategy.

We promote innovation and creativity to ensure continual improvement is constant in our operations through the setting and reviews of SHEQ Objectives.

We are committed to abiding with applicable legal and other requirements prescribed by the authorities and needs from our respected customers to ensure customers and other stake holders are continually satisfied with our services.

We strive to practice a behavioural based safety approach in order to prevent injuries and ill health in our activities.

We promote services and solution that promotes the prevention of pollution and its related OHS risks within our context of activities.

We seek to advise, and where relevant educate, customers and interested parties.

"The Greener Environmental Solution"
