

# KUALITI KITAR ALAM SDN BHD

## Integrated Management System Policy Statement

As part of our "Greener Environmental Solutions" we are committed to be part of the nation's sustainable development, in the area of sustainable recycling, reuse, reduce and recovery.

With UEM Enviro as the backbone, we strive to achieve a team that is dynamic, motivated and technologically inclined in driving our business while being a Socially Responsible Corporation.

Aligned with the above, we are committed to implement the following guiding principles towards a sustainable business environment.

At Kualiti Kitar Alam Sdn Bhd,

We integrate business requirements with quality, environmental, health and safety management systems.

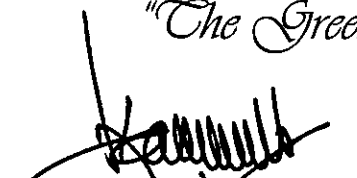

We inculcate continual improvement and excellence in our operations through realistic and beneficial objectives.

We are committed to abiding with applicable legal and other requirements prescribed by the authorities while we strive to meet the needs from our respected customers.

We act in ways to minimize injuries and ill health to people working with us while promoting behaviour based safety culture as far as it is practicable in our activities.

Our services promote the prevention of pollution and its related OHS risks.

*"The Greener Environmental Solution"*
